## Highlights:

- 16 years of relentless services
- More than 1,500 students benefitted
- More than ₹60L worth scholarships awarded
- More than 250 unique donors and more than 50 who have been donating for more than 10 years

## The cause

As pioneers in educational scholarship, what can we do better? How do we maintain our combined vision of enabling the needy & meritorious students that is supported by humble and divine people?

For 16 long years, we all have thrived to help and support the students who truly deserve! The year that has gone by draws upon the work that we have done in past with support and cooperation of our esteemed donors, well-wishers and friends. **Thank YOU!**

## The effect

In 2018-19, we are able to support 138 students across various states and different academic streams. The amount distributed to these outstanding students sums up to ₹12,00,000; more than 80% of this comes from our sustained donors.

## The impact

This year also saw an outstanding rigor where our beneficiaries turned donors! The students who had taken scholarship in the past are now in position to help other needy students. This is the testimony to the stellar support and unhindered confidence you have entrusted upon us.
